In claim 1, line 1, "enantiomeric" has been changed to - - enantiomeric - - .

Authorization for this examiner's amendment was given in a telephone interview with Terryence F. Chapman on February 28, 2007.

Prior to the first line of the first page of the specification, the following has been inserted:

- - Reference to Related Applications

This application is a 371 of PCT/JP03/12942 filed October 9, 2003 - - .

The following is an examiner's statement of reasons for allowance: U.S. Patent No. 6,991,729 is considered to be the closest art because it claims a similar invention. The case has been allowed because the terminal disclaimer of March 1, 2007 negates the possibility of a double patenting rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to E. Therkorn at telephone number (571) 272-1149. The official fax number is 571-273-8300.
